## Same Creative Power, New Front Door

To better support teaching, learning, and university initiatives, Tulane's Adobe Creative Campus licenses must be renewed at the end of each semester to continue

use. This shift allows Tulane to ensure compliance with enterprise licensing terms, allocate licenses more strategically, and prioritize academic and institutional needs.

Current users may experience disruptions in access to frequently used Adobe apps, including Acrobat Pro, Photoshop, Premiere, Illustrator, and others included in Tulane's Creative Campus license until they renew their license.

To renew your Adobe license associated with your Tulane Adobe ID, visit <https://adobe.tulane.edu> and select the entitlement button to provision the license.

If you have any questions or issues, please email [help@tulane.edu](mailto:help@tulane.edu).
